

Polygon focuses on scalable robotic solutions with customers and partners who are seeking and can afford the best in class

Robotics & Mechatronics Building Blocks:

Sensors

Vision systems

Path generation

End-effectors

Arms

Simulation & validation

AI algorithm

Database

Haptic feedback

Servo and control

Human robot collaboration

Navigation

We provide solutions for:

Industry

Agriculture

Medical &
Wellness

Home

Homeland
security

Hospitality

We help robotics early-stage & startup companies with:

- POC and technology validation
- IP validation and generation
- Access to network of strategic partners and investors
- Rapid development
